WISCONSIN LEGISLATURE

A Joint Committee on Redistricting the State.

A Regular Jam in the Assembly Chamber to Hear the Message.

Both Houses Adjourn Until Monday Night.

The Senatorial Caucus to Be Held Wednesday Evening.

The Keyes' Men Claim a Point on the Caucus Date.

Other Interesting State and Miscellaneous New Items

THE LEGISLATURE.

Special to the Gazette.

MADISON, Jan. 13—The principal business done in both Houses this morning was the introduction of resolutions providing for a joint committee on redistricting the State. The Legislature met in joint session in the Assembly chamber, at noon, to hear Governor Smith read his fourth annual message. The Assembly chamber was packed to its utmost capacity with legislators and visitors from all sections of the State. Unusual interest is manifested in the document. At the conclusion of the joint session, both houses adjourned till next Monday night. The first Republican senatorial caucus was called for Wednesday night. Only reporters for the daily press will be admitted. Sawyer's friends tried to force the caucus for to-night, but Keyes' men absolutely refused to accede, and the project was given up. This is regarded as first blood for Keyes, and his friends are quite jovial over the prospect.

T. L. WRIGHT.

BELOIT, January 12.—Mr. T. L. Wright, long prominently connected with our manufacturing interests, died last night at the age of 74, after a lingering illness. Mr Wright was President of the North Western Paper Company from its organization until he sold his interest in the business last summer, on account of failing health. He was a most active and energetic business man, an enthusiast in paper-making, and for some thirty years has efficiently managed the North Mills at Rockton. He was also always interested in matters pertaining to the welfare of this city, notably as to its educational progress. He has from his arrival here in 1846 been especially active in public school matters, being for years superintendent of schools and president of the city school board. His influence has been very marked for good during his life in this community, and his death is generally lamented.

MAINE.

AUGUSTA, Jan. 12.—In the Senate, majority and minority reports on the gubernatorial vote were submitted. The minority claimed the question was in grave doubt. After a long discussion the majority report was adopted.

The House without debate accepted the report of the majority committee on gubernatorial votes, declaring Plaisted elected governor. There were seven opposing votes. The President and Speaker were requested to notify Governor Plaisted of the result.

WISCONSIN FIRES.

TWO RIVERS, Jan. 12—A fire burned ten sheds and contents of the Two Rivers Manufacturing company pail and tub factory, and 500 cords of dry staves. Loss estimated as high as $15,000.

MILWAUKEE, Jan. 12.—The mill of Foster, Cook & Co., at Fairfield, Wis., was destroyed by fire; loss, $25,000 to $30,000; insured for $12,000.

Pugnacious Somnambulists.

A singular exhibition of somnambulism, or deviltry, caused some excitement in a Petersburg hotel last week. Two gentleman, strangers to each other, desired to be called at an early hour in the morning that they might take an express train for the north. At the appointed hour the hotel messenger rapped at the door of the man from Washington to arouse him. The occupant of the room, taking the messenger for an intruder, jumped from bed, dashed at him with a pitcher in hand, and chased him from the room. Returning, the gentleman by mistake entered the apartment of the New Yorker, who was dreaming, and whom he also took to be an intruder. A contest of strength ensued, during which the pitcher was broken to pieces and both men slightly injured. The New Yorker escaped from the room and called for help, while the man from Washington, master of the situation, locked himself inside. Help was soon obtained in the person of some men in the hotel and one or two police officers, and the man from Washington was persuaded to open the door and go to his own room. He soon after seemed to awaken as if from a dream, appearing entirely ignorant of what he had done. He apologized to the New Yorker for his conduct, and they went north together on the train.

The Melancholy Dane.

Hamlet, Prince of Denmark, would not have been dubbed, the "Melancholy Dane" if he had known Dyspepsia was all that ailed him, and that all that he needed was a supply of Spring Blossom, a sure cure for Dyspepsia, Biliousness, Indigestion and other diseases of that description. Price 50 cents, trial bottles 10 cents.

STATE AFFAIRS!

The Annual Message of Governor Smith.

An Elaborate Document on the Condition of State Affairs.

Interesting Facts are Given and Valuable Suggestions Offered.

MADISON, Jan. 13—The fourth annual message of Governor Smith was delivered to the Legislature in joint convention to-day. It was as follows:

Fellow Citizens of the Senate and Assembly:

The past year has been fruitful in abundant harvests; and every form of industry has yielded remunerative returns. Public order has been maintained without interruption, in all parts of the State, and there has not been, in any locality, even the fear of tumult. The various educational, benevolent and penal institutions of the State were never in better condition, or more adequately prepared to meet the public necessities and expectations; and, whatever criticisms may have been made upon methods and details of management, no suggestion has come to my knowledge, of anything affecting the integrity or the purity of motives of any officer connected with their management.

Complying with the command of the Constitution, which requires the Governor to "communicate to the Legislature, at every session, the condition of the State, and recommend such matters to them for their consideration as he may deem expedient," I have followed my custom of previous years, and invite your attention to a statement of the facts and the figures which exhibit the "condition of the State," and, with but little elaboration, argument or comment, suggest the more important matters which demand your consideration.

PUBLIC FINANCES.

The receipts into the State treasury for the fiscal year ending September 30, 1880, from all sources, were	$1,744,719 09
Balance September 30, 1879	588,824 60
Total	$2,333,543 69
The disbursements, during the same period for all purposes were	$1,872,144 98
Balance September 30, 1880	461,398 71
Total	$2,333,543 69

GENERAL FUND.

The amount on hand September 30th, 1880, was credited to the several funds, as follows:

General fund	$142,872 70
School fund	31,581 70
School fund income	19,689 11
Normal school fund	31,131 51
Drainage fund	5,280 84
University fund	19,085 38
Agricultural college fund	22,811 34
Delinquent tax fund	2,125 55
Deposit fund	7,784 45
St. Croix & Lake Superior R. R. trespass fund	174,285 29
St. Croix & Lake Superior R. R. deposit fund	3,691 85
Redemption fund	9 12
Allotment fund	955 87
Total	$461,398 71

The fiscal transactions and condition of the State, apart from its duties and responsibilities as trustee and custodian of the various educational and other funds before named, are exhibited in one account. All the revenues of the State, whether derived from taxes, licenses paid by railroad companies and other corporations and peddlers, or from fees and sales of laws and reports, are charged in the first instance to the

GENERAL FUND.

The receipts into this fund during the fiscal year were as follows:

Direct State tax	$ 455,881 89
Railroad companies, license taxes	418,148 75
Insurance companies, license taxes	41,315 15
Counties, for the support of inmates of the several charitable institutions	101,131 31
Miscellaneous sources	32,899 62
	$1,049,476 73
Balance from previous year	273,281 49
Total	$1,322,688 22

TRUST FUNDS.

The disbursements from this fund, for the same period, including, as will be seen, not only the payments for current expenses proper, but the interest on the State's "war debt," its contributions to the University, to the School fund income, for free high schools, and for the support of industrial schools, the hospitals for the insane, and the institutions for the education of the blind and the deaf and dumb, have been as follows:

Salaries and other permanent appropriations	$ 135,789 51
Legislative expenses	91,517 75
Miscellaneous purposes	224,948 20
Interest on the public debt	157,500 00
School fund income	7,088 36
Free high schools	25,000 00
State university	43,897 18
Hospitals and benevolent institutions	419,014 52
Milwaukee County Insane Asylum	75,000 00
Total	$1,179,815 52
Balance to credit of this fund October 1, 1880	142,872 70

Compared with the expenditures of the preceding fiscal year, there is an increase of $124,703.01; but of this sum $75,000 were paid to Milwaukee county on account of the construction of its insane asylum; and an excess of $42,785.68 was paid on account of appropriations to hospitals, benevolent and educational institutions; so that only $6,917.33 remains to be charged to current State expenses proper, and is more than accounted for in the increase of legislative expenses.

The condition of the several educational

TRUST FUNDS,

at the close of the fiscal year, as follows:

School fund, at interest	$2,716,231 92
University fund, at interest	207,375 40
Agricultural college fund, at interest	244,519 52
Normal school fund, at interest	1,039,542 60
Total, at interest	$1,207,669 44
School fund, on hand	$ 31,581 70
University fund, on hand	19,085 38
Agricultural college fund on hand	22,811 34
Normal school fund, on hand	31,131 51
Total, on hand	$104,609 93

The increase during the year in the amount at interest is $50,662.79, and in the amount on hand, $4,165.41—a gain of $54,828.20.

Some complaints have been made that the sums reported on hand, from time to time, to the credit of these funds, are unnecessarily large; but it should be remembered that the officers charged with the care of these funds must comply not only with the written law regulating their management, but also with the predominating public sentiment. This sentiment as exemplified in many acts of successive legislatures, unmistakably favors the policy of loaning these funds to school districts, towns, villages, cities and counties; but, except in the cases of school districts, such loans cannot be made without special laws authorizing them. If this system of loans is to be continued it seems to me altogether expedient that a general law should be enacted, authorizing the commissioners of public lands, subject of course to such conditions and restrictions as may be necessary, to make these loans. Three useful purposes would thus be subserved. The time of the legislature would not be taken up with the consideration of innumerable special acts authorizing loans; a much needed uniformity in the manner of making loans and collecting the payments of principal and interest would obtain, and loans could then be made, from time to time when needed, and the necessity for retaining large balances in the treasury would disappear.

The balance to the credit of the Governor's

CONTINGENT FUND,

January 1, 1880, was $989.81. The expenditures chargeable to this fund, during the calendar year, have been $1,066.27, but in this sum is included $465 advanced to the committee investigating the affairs and management of the Wisconsin State Hospital for the Insane, to enable them to meet some of the expenses of that investigation. In view of the condition of this fund at the present time and the possible demands upon it for the present year, I recommend that the sum of $2,000 be appropriated thereto at this session.

PUBLIC INDEBTNESS.

The aggregate indebtedness of the State is the same as at the close of the last fiscal year, namely: $2,252,057.00, and will doubtless remain so for years to come. This indebtedness represents in part the contributions Wisconsin made, during the war, for the preservation of the Nation, and the annual payment of interest thereon will be an annual reminder of that struggle and the causes which led to it,—themes which neither we, nor those who come after us, can too frequently recur. The forms of this indebtedness have been somewhat changed, by taking up nine of the eleven bonds outstanding a year ago, and substituting therefore, certificates of indebtedness to the Agricultural College fund.

The indebtedness of the several counties, cities, towns, villages, and school districts in the State, is reported to the Secretary of State as follows:

Railroad aid	$4,503,970 62
Interest unpaid	1,276,012 42
School districts	276,566 58
All other purposes	3,545,518 13
Total	$9,599,067 75

The aggregate public indebtedness of the people of Wisconsin is therefore somewhat less than twelve millions of dollars.

ASSESSMENTS.

The values of all property in the State subject to taxation, as returned by the assessors for the past two years is as follows:

	In 1879.	In 1880.
Personal property	$ 88,127,949 00	$39,747,571 01
City and village lots	85,545,746 50	101,469,711 00
Other real estate	282,629,498 50	284,441,861 00
Total	$405,303,195 00	$425,680,143 09

The State Board of Assessment fixed the gross value of the taxable property in the State at $445,582,720.00, but even this sum is, in my judgment much below its actual value. It is, of course, quite impossible to determine just how much this actual value may be. The property which is actually listed and assessed would probably reach not less than $700,000,000, and this fact should be borne in mind when considering the rate of the taxation.

The value of private property which pays no revenue to the State, either by way of direct tax, or otherwise, is returned by the assessors at $6,353,014, as follows:

Religious associations	$5,693,000 00
Scientific and literary associations	378,545 00
Benevolent associations	214,779 00
Agricultural societies	63,690 00

TAXES.

The total tax levied in the State for the year 1879, for all purposes, amounted to $7,577,767.27, a decrease of $292,091.73 from the amount levied the previous year, and was at the rate of $1.72 625-1000 on each one hundred dollars of the assessment for that year. The purpose for which these taxes were levied, and their respective amounts and rates, are as follows:

State tax	$ 457,452 61	rate. $0.10 4-
County tax	1,722,033 27	.39 2+
Town, city and village tax	2,314,909 56	.52 7+
School tax	1,924,239 55	.43 9+
Road tax	1,159,132 30	.26 4+
	$7,577,767 27	$1.72 6+

These figures represent only the direct taxes levied upon property. The total taxes paid by the people directly and indirectly, into the State treasury, were for the last fiscal year $600,000 in excess of the amount here stated. Nothing like this proportion obtains in county town and other taxes, but the sums collected by way of licenses and fees ar by no means inconsiderable.

The State tax now being collected amounts to $662,058,63, a large increase over the tax of the preceding year, rendered necessary by extraordinary appropriations,—among them those for the building of the Milwaukee County Insane Asylum, and the rebuilding of the Institution for the Education of the Deaf and Dumb.

ESTIMATES.

The Secretary of State estimates that the expenditures for the calendar year 1882 will be $988,008.13, and the receipts for the same period, under existing laws, $704,758.93, as follows:

Taxes	$234,058 63
Railway companies	400,000 00
Insurance companies	40,000 00
Miscellaneous sources	30,700 00

This leaves $283,250.00 to be provided for by the Legislature. It is my opinion that both the expenditures and receipts will be somewhat in excess of these estimates. The demand for current expenses and for special appropriations, at many of the State institutions, will in all probability considerably overrun the figures given by the Secretary of State.

I have so frequently expressed my opinion in regard to expenditures and appropriations, that it is unnecessary to repeat them here. The people demand that the public business shall be carried on in an expeditious and orderly manner, that the greatest efficiency shall be given to all public institutions, and that nothing shall be left undone which way promote the general welfare. But they are, at the same time, inquisitive, and rightfully demand to know what it costs to accomplish these purposes. Would it not be wise, therefore, abolishing all circumlocution, to let your appropriations show the total amounts of public money devoted to any specific object? The present system of maintaining the Hospitals for the Insane and the Industrial School for Boys, whereby a portion of the expense is charged to counties, and the sums thus collected treated as a separate fund, not under legislative control, or appearing in the annual appropriations, appears to me to be cumbersome, expensive and misleading.

It is the duty of this Legislature, as, I trust, it is the purpose, to exercise wise discrimination, not only in the matter of specific appropriations, but also in the consideration of all questions involving the expenditure of the public funds.

EDUCATION.

The report of the State Superintendent will show that the total amount of money expended for the support of common schools during the past year was $2,166,368.43, an increase of nearly $14,000 over the preceding year, and that of this sum $1,567,870.32 were paid for teachers' wages. The whole number of children within the State, of school age, is reported at 481,198, a slight decrease from last year, but the attendance at school has increased nearly 8,000, and is now reported at 209,258. The number of teachers employed in the public schools of the State the past year was 10,110. By the terms of the "compulsory education law," which went into effect September 1, 1879, all children between the ages of seven and fifteen years, not excused therefrom for good reason, are required to attend a public or private school at least twelve weeks in each school year. The number of children, between these ages, in this State, is found to be 229,076 and 170,402, or nearly three-fourths of them attended the public schools during the year.

The State Superintendent has been most active in the discharge of the varied duties of his office during the past year, and the impress of his zeal and faithfulness will be felt for many years to come.

There is a healthy rivalry, but no unfriendly jealousies, between the public and private schools of Wisconsin. The friends and promoters of either recognize that the field is broad enough for all who may come, and each encourages and supplements the work of the other. The report of the State Superintendent will contain the most complete and reliable statistics of the condition of the schools in the State, private as well as public, ever compiled, and in this and other respects will be of unusual interest.

The expenditures for the four Normal Schools were $74,015.33, for teachers' institutes, $7,210.79, and for expenses of administration, $2,704.41. The amount paid to teachers at the schools was $57,869.00, and for repairs $6,081.88. The whole number of pupils in attendance was 1,880, at an expense averaging $40.81 per pupil. The number attending institutes was 4,965, a gain of 542 over the attendance for the previous year, and the expense of conducting the institutes averaged less than $1.50 for each member enrolled. The management of this important trust by the Board of Regents is eminently satisfactory and merits high commendation.

The number of students enrolled at the State University in the different departments, October 1, 1880, was 436. The total expenses for the fiscal year were $97,060.04, of which sum $49,502.40 were paid to instructors, $13,192.46 for completion of Assembly Hall, $6,779.33 for repairs and other improvements, and $27,585.85 for miscellaneous purposes. The University has attained conspicuous and well merited rank among the higher institutions of learning in the United States. It is in fact, as well as in name, a *State* university, and it aims to meet all legitimate public demands. Its corps of instructors and its courses of study, as exemplified in the character and success of its graduates, are not in any respect inferior to the best, however much its methods and purposes may differ from those adopted in institutions founded a century or more ago. I am glad to know that its merits and advantages are becoming better appreciated throughout the State, and that, in consequence, very few counties are unrepresented in its catalogue of students.

INDUSTRIAL SCHOOLS.

The fiscal year of the Industrial School for Girls, in Milwaukee, closes October 31st. The managers forwarded me their report for the past year, requesting that it might be published by the State. Much to my regret, the Commissioner of public Printing could find no authority in the law for complying with this otherwise most reasonable request. The buildings and grounds occupied by this institution are the property of the State, and it is doing a most noble work in most excellent way; a work which, but for the self sacrificing philanthropy of the ladies connected with its management, the State would be obliged to undertake, at a cost of several dollars annually, and it would seem that for this reason, because of the public interest in the methods and results of this work, the State ought to make provision for the publication of their annual report.

The number of children received into this school the past year was 59; the number discharged 38; the whole number in attendance during the year 147, and the number present at the close of 107—85 of them being girls and 23 boys, the latter too young to be sent to the school at Waukesha. Twenty-three of the sixty-two counties in the State have have representatives in the school. The current expenses for the past year were $9,300.32, of which their was paid for salaries and wages $1,946.01, and for subsistence $2,499.89. Since its organization, in April, 1875, 241 children have been received into the school, and 170 have been discharged or placed in families. Of this last number, 38 did not do well, and have been returned, leaving probably not less than 125 now living who are doing well, either at their original homes or in other families where new homes have been found for them. This is a most instructive and satisfactory record, not only in that it shows a great amount of positive good accomplished, in the reformation of these girls, and a greater amount of positive evil averted, but also because it shows further, that the managers agree in theory and conform in practice to the opinion expressed in my last annual message, that "institution life at best is but a poor substitute for home."

The appropriations made by the legislature last winter have been faithfully applied to the objects specified in the act making them, but were not sufficient to accomplish all that was desired. The managers will apply to you for small appropriations to complete additions and improvements already commenced, and their applications, I doubt not, will receive, as it will merit, your favorable consideration.

The whole number of boys in attendance at the school in Waukesha during the year was 549, the average for the year being 427. The number received during the year was 118,—108 by commitment and ten by return of former inmates. The number released, died and escaped was 119, of whom 104 were discharged on ticket of leave, 97 to their homes and seven to new places on trial. The whole number received at this school since its opening, in July, 1860, is 1,801. The industrial interests connected with this institution are reported in a flourishing condition, and their healthful and reformatory influences upon the boys cannot be overestimated. All the boys work some portion of each day, but none of them to exceed five hours, and, and it is not to be expected that their labor can be made to yield pecuniary returns. The shops, however, more than support themselves, but the reports do not show their net earnings. The expenses for the past year were $51,650.78, including $3,331.77 for repairs and improvements. The payments of salaries and wages were $15,223.05, and for subsistence, exclusive of products of the farm, $14,689.91. The current expenses for the present year are estimated at $54,000.00, which will require an appropriation of $41,706.24, the balance being charged to, and collected from counties. The managers ask for specific appropriations, for additions, repairs and improvements, aggregating $22,050.00. They also recommend a modification of section 4970 of the statutes concerning commitments and forwarding a copy of the testimony upon which the conviction is based.

If the present system of caring for all classes of boys who are sent to this school is to be continued, most, if not all, of the appropriations asked for by the managers ought to be made; but if the recommendations I am about to submit, in regard to a distinct school for

DEPENDENT CHILDREN,

shall receive favorable consideration, the greater part of the improvements and additions estimated for may be omitted.

The experience of Wisconsin confirms the teachings of experience in all ages, to the effect that the most economical way to diminish and prevent crime is to rescue the children from paths which leads to idleness, vice and criminal habits. The monetary benefits which have been conferred upon the people of Wisconsin by the Industrial School for Boys, are literally incalculable. They are in some measure negatively indicated by the comparatively limited number of inmates in our State prison. I think it within the truth to say that but for the good effected by this Industrial School in the past, our criminal population would be twice as large as it is now, and the expenses for courts, sheriffs and jails proportionately increased. Under the present circumstances it cost the several counties in the State, for the year 1879, over $250,000.00 to arrest, detain, convict and punish criminals. Here, then, is a direct and obvious saving of perhaps a quarter of a million dollars annually, but this is the least of accruing benefits. The great gain, even in dollars and cents, results from having upright, intelligent, sober and industrious citizens in place of professional criminals.

But may we not do even better than we are doing? Or, rather, is not our present system, in some respects, inexcusably bad? There are in the Industrial School at Waukesha very many boys, sent there nominally for vagrancy, or perhaps incorrigibility, or even larceny, but really and in fact, because they had no homes or friends. This is the record for the last year: committed for vagrancy 17; for incorrigibility, 32; for larceny, 54; for burglary, 2; for malicious destruction of property, 2; for forgery, 1. Of these 43 were less than 13 years of age, 14 had no parents living, 16 had mothers only, and in cases of 13 the parents were separated. Many, perhaps most, of these boys, were not in fact vicious or incorrigible. In times past they would have been sent to poor-houses—a most unfit place, surely, because the tendency of the associations and surroundings was to make them confirmed paupers, and the practice has been wisely prohibited by law. But the same line of argument which justifies this prohibition, leads irresistibly to its extension. Industrial schools are intended for the incorrigible, the vicious and the criminal, and not only are these classes present in those schools, but every boy committed to them, to a greater or less extent, deservedly or undeservedly, becomes identified with these classes in public estimation. One of the results is that it is extremely difficult to find homes for a large class of boys who are as bright, as intelligent, as innocent and as affectionate as any in the land. And yet the rich and powerful State of Wisconsin, upon the pretext that thereby it saves a few thousands of dollars, consents to affix upon such boys as these a badge of dishonor.

I have alluded to this subject in previous messages as one demanding attention in the early future, but further observation and reflection convince me that we cannot afford, either on grounds of right or expediency, longer to delay to provide a suitable temporary home and school for dependent children, a place to which they may be sent and from which they may be distributed without having their misfortunes increased by the State.

STATE PRISON.

The number of convicts confined in the State Prison, September 30, 1880, was 277—thirty-two less than were there a year previous, and a decrease of sixty-nine in two years. The commitments during the year were 121. Of the prisoners received only twelve are known to have been previously in any prison, and only ten could neither read nor write. The total expenditures for the year were $44,082.88, an increase of $1,157.88 over the amount estimated in the preceding report, and of this sum $473.79 was paid on account of previous unreported liabilities. The amount paid for salaries and wages was $15,296.71, and for subsistence, $14,214.73. The convicts' earnings were $27,873.40. The expenses for the current year are estimated at $42,000.00, and the earnings at $27,000.00, but the deficiency will be supplied from the assets on hand and no appropriation will be necessary.

The reports of the directors and warden set forth very clearly all matters connected with the management and condition of the prison, and I bespeak for them a careful perusal. It must be a matter of just pride to every citizen that our prison population is comparatively so small, and it is in every way creditable to all connected with the administration of prison affairs that so few of its discharged prisoners are reconvicted of crime; but the perfection of prison discipline cannot, in my judgment, be attained until the laws are modified by the substitution of indeterminate for fixed sentences.

BENEVOLENT INSTITUTIONS.

The whole number of patients treated at the Northern Hospital for the Insane during the last fiscal year was 719, the daily average 529 3-10, and the number under treatment at the close of the year 489. The number discharged recovered was 42, improved 71, and unimproved 77. Of those discharged 23 were removed to the State Hospital, and 83 to the Milwaukee County Insane Asylum. The total expenditures were $138,910.45, of which $129,056.21 were for current expenses. The current expenditures for the present calendar year are estimated at $121,883.92, which will require an appropriation of $70,319.67 in addition to the amount to be received from counties, and the surplus which it was expected would remain on hand at the beginning of the year. The trustees request special appropriations to the amount of $16,800.00 for purposes specified in their report.

The Wisconsin State Hospital has given treatment to 753 patients during the year, with a daily average of 550, and 586 under treatment at its close. The number discharged from this hospital recovered is reported at 42, the number improved at 47, and the number unimproved at 13. The total expenditures were $178,317.59; of which $48,963.00 were paid for previous year's liabilities, and $4,528.34 on account of special appropriations. The current expenditures for the present year are estimated at $124,550.00, requiring an appropriation of $80,326.00 in addition to funds on hand and amount to be received from counties. The trustees of this hospital also request special appropriations sor the purposes set forth in their report in amounts aggregating $27,600.

In obedience to a joint resolution in that behalf adopted by the last Legislature, I appointed Senators Sutherland, McCrew and Smith, a committee to investigate the affairs of this hospital. This committee has, I believe, most faithfully and thoroughly performed the duties assigned them, and their report, with the accompanying testimony and papers, was filed in the executive office, December 22, where they now remain subject to such disposition as you may be pleased to make of them. There seemed to be such a general desire to be informed concerning this report that, with my permission, copies of it were made, and it has been published in many newspapers. It is therefore unnecessary that I should occupy any considerable time in presenting the conclusions arrived at, or the recommendations made by this committee. It suffices to say that the committee find many things to criticise and some to condemn, in the methods and manner in which the business matters of the hospital have been conducted, and in the absence of order in the management of its multitudinous details. Much of this, in the opinion of the committee, was incident to, if not inherent in, the system of government provided by law, and they accordingly recommend a radical change in the manner of supervising and governing the State's charitable institutions, by substituting for the several local boards of management one general board of control for all. The subject is one of grave importance, involving the conservation of the high and widely diverse purposes for which these institutions were established, as well as systematic and economical business management. While, therefore, the recommendations of the committee should receive your most considerate attention, the practical difficulties surrounding the administration of these sacred trusts by a single board of control should not be overlooked.

It remains for me to add, and I am much gratified that I may do so, that there is no suggestion in the committee's report of anything approaching corruption or malfeasance in office, on the part of any one connected with the hospital, while in many of the most important particulars, especially those relating to the condition and care of patients, the committee bestow much and well-deserved commendation.

The expenses of the investigation, including the per diem charges of the members of the committee, amounted to $3,845.15, of which sum, as before stated, $465.00 were paid from the contingent fund. An appropriation to pay the balance should be made at an early day.

The Milwaukee County Insane Asylum has been completed during this year, and embodies the best results of recent experience in all matters pertaining to hospital construction. In general appearance, convenience of arrangement, perfection of heating and ventilation, and in utilization and economy of space, it is not surpassed by any institution in the country. It was opened for the reception of patients March 26, 1880, since which time 245 different persons have received treatment, the daily average being 185. The cost of maintenance, exclusive of all repairs and furnishing, has been $14,515.46, an average of $2.90½ per week for each patient. The trustees do not expect that this average can be maintained throughout the year, or for a series of years.

It is estimated by the board of trustees that this asylum will accommodate 200 patients. Upon this basis there is now provision, in Wisconsin, for the treatment and care of not less than 1,400 insane persons in first class hospitals. This is at the rate of one for every 950 of population, and if judiciously used, ought to be amply sufficient for all other present necessities.

At the Institution for the Education of the Deaf and Dumb, the buildings provided for by the law enacted last winter have been erected and will be found well adapted to the purposes of the school. The amount expended from the building fund was $49,749 51, from the current expense fund $18,475 68, including in the latter sum $15,454 49 for repairs and permanent improvements and $4,000 for house furnishing. The greater part of the expenditures embraced in these last mentioned sums was made necessary by the fire in 1879, and is covered by the special appropriation of last winter. The amount paid for salaries and wages was $12,801 43, and for subsistence $8,030.34. The whole number of pupils enrolled during the year was 195, of whom 156 were in attendance September 20, 1880. The estimates for the current year are based upon an assumed average attendance of 175 pupils and amount to $24,500 00 for current expenses, and $12,050 00 for various purposes as set forth in their report. In addition to the recommendations made by the trustees, I suggest that it would be expedient to appropriate a sum sufficient to paint the shingle roofs of the buildings and provide pipes, hydrants and hose for protection against fire. I have been much interested in the printing office connected with this Institution, which is becoming an important branch of its industrial department. It now greatly needs some additions to its material, and I believe a small appropriation may very properly be made for this purpose.

At the Institution for the Education of the Blind, the total number of pupils enrolled was 89, with an attendance of 77, October 31—the close of their fiscal year. The fiscal year of this institution does not correspond with the State's fiscal year, and if any discrepancies should be found between their accounts and the tables published by the Secretary of State, this fact may account therefor. The current expenses for the twelve months ending October 31, were $17,840.74, of which sum $6,455.07 were paid for salaries and wages, and $4,133.19 for subsistence. The estimates for the current year are, for current expenses, $17,800, and for improvements and repairs, $1,200, for which sums, less $1,800 for cash on hand, the trustees ask appropriations.

I have, in obedience to my own inclinations, as well as in compliance with law, visited all the State institutions during the year, and without exception found them in most excellent condition and order. The health and comfort of their inmates are well provided for, and, in those devoted to education, the proficiency and progress of the scholars is altogether satisfactory.

It is the duty of the

STATE BOARD OF CHARITIES AND REFORM

to set forth in their report their opinion of the appropriations proper to be made for each of the charitable and correctional institutions supported or aided by the State. This, I have no doubt, the board will do, in the report which will soon be laid upon your desks, and thereby you will be greatly aided in arriving at just conclusions as to the several sums necessary to be appropriated. I have frequently commended the labors of this Board. By visits to jails and poor-houses as well as to the State charitable and correctional institutions, they become familiar with the practical workings of of the various laws enacted for the relief of suffering and the repression and punishment of crime; and by judicious advice and timely warnings they succeed in remedying many evils which otherwise might become public scandals. Their report for the current year is not yet in print, but from a general knowledge of the matters to which the Board has given attention, I anticipate a document of unusual interest and accuracy.

ILLUMINATING OILS.

The first report of the State Supervisor of Inspectors of Illuminating Oils, covering a period from May 24, 1880, when the law went into effect, to the close of the fiscal year, is full of interest and shows very conclusively that the benefits resulting from operations of the law greatly outweigh inconvenience or extra expense consequent upon its enforcement. It is confidently claimed by the supervisor that not a single lamp explosion has occurred where Wisconsin legal test oil has been used; that the number of accidents has greatly decreased, and that in nearly every case of accident reported, it has been conclusively demonstrated that the oil used was of an inferior grade, purchased before the law took effect. The total number of barrels of oil inspected prior to November 1, 1880, was 19,414, the number of barrels rejected being 1,751 and the number approved 17,663. The fees for inspection were $3,087.82, inclusive of the fee of two cents per barrel to the supervisor, which constitutes his entire compensation, and amounted to $388.28. There appears to be no provision of law for publishing this report. Believing it to be an instructive document, of great public importance, I recommend that you authorize its publication. I most heartily commend the conservative methods followed and the wise discretion used by the State supervisor in putting this law into practical operation. A change, amounting almost to a revolution, in the use of one of the most important articles of commerce has been wrought so unostentatiously as to occasion comparatively no annoyance either to dealers or customers.

FISH CULTURE.

The operations of the Commissioners of Fisheries during the past year have been very successful, and the reports from localities where fish have been distributed are very encouraging. The record of Wisconsin in this branch of industry, in the progress made and the success attained, is the counterpart of its record in all other departments. The expenditures for the past year were $6,277.50. The amount on hand is $1,440.40 and it is estimated that an appropriation of $8,000 can be profitably expended during the current year.

THE STATE BOARD OF IMMIGRATION,

of which the Governor and Secretary of State are *ex officio* members, have endeavored to expend the limited amount of money appropriated to carry out the purposes for which the board was created, to the best possible advantage. For some years no efforts had been made to secure the location of immigrants in Wisconsin, and the consequence was that they heard of other States and Territories and the advantages they offered, and gave no thought to Wisconsin. It has not been an easy matter to turn any considerable portion of the tide in this direction, but the labors of the board have not been altogether unsuccessful. Its records show that about 21,000 foreign immigrants settled in Wisconsin during the last calendar year. This is no inconsiderable addition to our population, and their strong arms and willing hands will assist very materially in developing our dormant resources. It is probable, also, that these immigrants brought with them and added to the cash capital of the State not less than a million and a half of dollars in ready money. The present indications are that the accessions to our population during the current year, from foreign immigration, will greatly exceed those of the past year, and, by reason of the information brought to light and disseminated by this board, many people in our own State and from other States will conclude to settle in central and northern Wisconsin rather than attempt to make homes upon the bleak and far off western and southwestern plains.

INSURANCE.

The text of the report of Commissioner of Insurance is commendably brief.—That which is necessary to be said is stated, and all else is omitted. The magnitude of this interest in Wisconsin, both to the insured and insurers, and the consequent necessity for careful supervision, may be gathered from these statistics:

Amount of fire risks written during the year, exclusive of amounts placed in town companies	$150,731,024 00
Amount paid for premiums thereon	1,589,472 00
Total losses paid	1,037,193 00

The commissioner renews his objection to the law of this State, which declares that the amount of insurance written in any policy insuring real property, shall be taken as the absolute measure of damages in case the property is destroyed, and urges very cogent reasons for its modification. It seems quite patent that in its present form the law offers a reward for rascality, and, in consequence, every honest man who procures insurance must pay an additional premium to cover the increase in the general hazard. In so fas as the law affixes a *quasi* penalty upon the companies for permitting over insurance, its tendencies are altogether in the right direction; but, in providing that the penalty shall be paid to the equally negligent or culpable insured, it encourages over-insurance and consequent incendiarism. The amendment suggested by the commissioner, or some provision looking to the accomplishment of the same end, should be incorporated into the law.

RAILROADS.

The total number of completed miles of railway in the State December 31, 1880, was 3,133 71-100, inclusive of 112 miles of narrow gauge track, and exclusive of 325¾ miles of sidings and spurs. The construction last year included 224 49-100 miles of standard gauge track, 9 miles of narrow gauge, and 16 miles changed from narrow to standard gauge. The number of passengers carried in Wisconsin was 2,717,500, an increase of 284,654 over the preceding year. The number of tons of freight carried in the State was 4,347,379, and the increase in this item was 170,108 tons—the equivalent of 17,000 car loads. The total earnings of all the roads in Wisconsin were $13,655,578.05, the in-

crease being over $2,000,000.00; and the expenses were $7,583,493.47, the increase in this item being about $550,000.00—making the net increase in earnings $1,-620,493.50. The proportion of the stock and funded and unfunded indebtedness for the roads in Wisconsin is reported at $129,654,481.28; making the average net earnings, over and above licenses and taxes of every description, nearly five per cent. There is, perhaps, no better index of the prosperous condition of the State, and the increase of the products from its soil, its mines and its forests, than may be found in the statistics published by the Railroad Commissioner. They are growing more and more complete, accurate and valuable every year. The efficiency of the management of Wisconsin railroads, and the scrupulous fidelity and vigilance of all their employes, are attested by the fact that of the millions of passengers transported, not one was killed, and only two were injured; and in these cases the injuries were occasioned by their own want of care.

RIVER IMPROVEMENT.

The amount expended by the United States during the past year for the improvement of the Fox and Wisconsin rivers has been much less than the importance of the work reasonably demanded; nevertheless, very substantial progress has been made, and the feasibility of making these rivers navigable from Lake Michigan to the Mississippi river has been confirmed. In particular, the experiments made and continued along the Wisconsin, prove that when the waters of that river are confined within the channel not exceeding 300 feet in width at low water, there is no difficulty whatever in maintaining ample depth of water for all purposes of navigation. I therefore suggest the importance of your urging upon Congress the expediency of making adequate provision for the early completion of this work.

The Sturgeon Bay Canal, though not yet completed, has been opened to commerce, and is amply justifying the arguments and prophecies of its early promoters and steadfast friends. In the year 1879, 160 vessels, with an aggregate capacity of 32,071 tons, passed through the canal. In 1880 the number of vessels 533, with a capacity of 113,379 tons, and in either year about one-third of the vessels were loaded. The largest vessel had a capacity of 650 tons. The work by the United States at the Lake Michigan terminus of the canal is not yet complete, and there has been at all times during the season greater depth of water in the canal than between the government piers. It is expected the work on the canal will be fully and satisfactorily completed as early as September of the present year.

The Mississippi river and its navigable tributaries border upon and intersect twenty states and territories, and their systematic improvement for purposes of navigation is a work of national importance for both inter-state and foreign commerce. A voluntary commission, composed of representatives appointed by the Governors of these states and territories, has undertaken to collate the facts, statistics and arguments relating to this subject and urge them upon the attention of Congress, and asks that the states more immediately interested in this work make each an appropriation of a thousand dollars to be expended in defraying the necessary expenses of the commission. Most heartily approving the objects which this commission is seeking to accomplish, I recommend that you make the appropriation as requested.

NATIONAL GUARD.

There are at present 32 organized companies of militia in the State, with an aggregate membership of 2,085 officers, non-commissioned officers and privates. Twenty-nine of these companies have been inspected during the year, and all but four of them found to be in a condition to justify payments to them for rent of armory and uniform fund, as provided by law. Under the provisions of the law enacted last winter, one battalion of five companies has been organized in Rock and Walworth counties, and could be assembled for duty, in case of necessity, with a full complement of experienced officers, with but little delay. Nine companies, at their own request, were ordered into camp, for instruction, at Milwaukee last June during the Soldiers' Reunion, and rendered very efficient and much needed service in guarding the camps and protecting the large amount of public property loaned to the State for that occasion. Several other companies were also in attendance and by their soldiery bearing and good conduct added most materially to the interest of that memorable meeting.

There has been, for some years, a military department connected with the State University, and there is at the present time a so-called battalion organization, among the students, of two companies, aggregating 135 members, under the command and instruction of Captain Charles King, U. S. A. The members of this battalion, its officers and instructor, the President of the University, and the chairman of the executive committee of the Board of Regents, unite in a request that provision may be made for the incorporation of this organization and its successors into the Wisconsin National Guard, in order that they may have a proper military standing, be subjected to proper military discipline, and receive such allowances for care of arms and armory, and for uniforms, as it may be deemed expedient by the legislature to provide for. I most cordially approve this request, and commend it to your favorable consideration.

PUBLIC LANDS.

There has been a large increase in the amount of business transacted during the year in the State Land Department. The sales of land aggregated nearly 82,000 acres, and in addition nearly 64,000 acres were patented to counties under the provisions of chapter 261, Laws of 1880. The lands now held by the State, inclusive of about 82,000 acres reserved from sale, amount to 1,455,202 acres, and embrace many thousands of acres of excellent farming lands,—lands destined at no distant day to rival in the variety, excellence and amount of their products, the very best lands in the State now under cultivation. Progress has been made in the adjustment of the claims of the State for additional swamp lands, and I confidently expect to receive during the year very considerable accessions to our lists of lands. In the prosecution of these claims I have, at all times, had the zealous co-operation of the commissioners and the efficient clerical force of the Land Department.

STATISTICS.

The returns of the principal farm products raised in the State in 1879 and growing in 1880, as reported to the Secretary of State by the town assessors, and by him tabulated and compiled, show the following aggregates:

Wheat, product of 1879,		21,040,238	bushels.
Corn,	" "	27,530,121	"
Oats,	" "	27,197,579	"
Barley,	" "	4,246,452	"
Rye,	" "	1,869,250	"
Potatoes,	" "	5,994,923	"
Cranberries,	" "	67,339	"
Clover seed,	" "	263,311	"
Timothy seed	" "	49,989	"
Flax,	" "	17,597,859	pounds.
Hops,	" "	1,667,612	"
Tobacco,	" "	9,050,954	"
Butter,	" "	22,703,549	"
Cheese,	" "	16,407,145	"
Wheat growing	in 1880,	1,737,921	acres.
Corn	"	940,785	"
Oats	"	988,898	"
Barley	"	212,626	"
Rye	"	138,181	"
Potatoes	"	88,784	"
Cranberries growing	"	17,804	"
Flax	"	44,451	"
Hops	"	5,173	"
Tobacco	"	13,359	"
No. of cows	"	399,484	"

I invite particular attention to the items of flax and tobacco. These crops have now been cultivated for a sufficient number of years to satisfy the most skeptical that the soil of Wisconsin is peculiarly adapted to their successful growth. The yield of flax is sufficient, it would seem, to justify the erection of mills for its manufacture, particularly as it is quite obvious that an assured market for straw would materially increase the acreage devoted to that crop. Those who have investigated the subject assure me that all the conditions necessary to the successful manufacture of linen of all descriptions are found in Wisconsin, and I am persuaded that flax culture and manufacturing offer very promising fields for the investment of capital. Tobacco culture has hitherto been confined to a small portion of the State, but it has already assumed large proportions as a commercial factor. The value of the crop harvested in 1880 will reach nearly or quite a million and a half of dollars, and the time is not far distant when it will be expedient to provide proper legal forms for assuring the markets of the world of the grade and quality of Wisconsin grown tobacco.

I also invite your attention to the fact, not appearing in these statistics, that considerable quantities of the improved varieties of sugar cane now being raised in Wisconsin, and that the results of recent experiments tend to show that excellent syrup and sugar can be obtained therefrom. Efficient and practicable methods for manufacturing the syrup and crystalizing the sugar so that the product may have a uniform commercial standing and value, remain to be discovered, and if you can aid in accomplishing this the resulting benefits will be of great public utility.

I commend to your mast careful consideration the paragraph in the report of the Secretary of State concerning statistics. Much has been done under the present law to evolve order and aproximate certainty out of chaos and utter unreliability, but the neglect of a few officers makes the returns more or less incomplete. It seems necessary, therefore, to modify the law by providing that no officer, whose duty it is to collect and make returns of statistics, shall receive pay for any service until he shall produce and file proper written evidence that he has complied with all the provisions of law. I approve, also, the recommendation of the Secretary of State, that the scope of the law should be enlarged so as to embrace the statistics of mining, lumbering and manufacturing, and suggest, in addition, that lumber inspectors should be required to forward their reports to the Secretary of State to be tabulated, consolidated and published, in connection with other statistics.

And withal the State should not be content simply to gather and publish statistics. It should aid in every practicable way in developing and utilizing the great resources which we possess. It can do this, in part, most economically and efficiently by continuing reasonable appropriations to the State and Northern Agricultural Societies, the Horticultural Society and Dairymen's Association; and there may properly be added to the list such other societies as shall devote themselves to developing and perfecting new forms of industry.

GOVERNOR'S RESIDENCE.

It has been my opinion for some time that the State should provide an official residence for its Governor, and require him to occupy it during his term of office; and as there is now an opportunity to purchase, upon very reasonable terms, a furnished house and grounds, in every way suited for the purpose, I recommend an early consideration of the subject by the Legislature.

CONSTITUTIONAL AMENDMENTS.

Amendments to Section 1, of Article III, and Sections 4, 5, 11 and 21, of Article IV, of the Constitution were proposed in the last Legislature and agreed to by a majority of the members elected to each of the two houses. The constitutional requirements necessary to enable this Legislature to consider these amendments have been complied with, and, if they shall be agreed to by you, it will be your duty to provide for their submission to the people in such manner and at such time as you may prescribe.

FEDERAL CENSUS AND APPORTIONMENT.

Inasmuch as the Constitution requires that the legislature shall, at their first session, after an enumeration of the inhabitants of the State, made by the authority of the United States, apportion and district anew the members of the senate and assembly, according to the number of inhabitants, I have requested the Superintendent of the Census to furnish me an official statement of the population of Wisconsin, by towns, villages and wards, as shown by the recent census, and have written assurance from him that such a statement will be supplied on or before the first day of February proximo. It may be expected, I think, that this statement, when received, will afford all the information necessary to enable you to proceed with the redistricting of the State into senate and assembly districts, and, if Congress shall agree upon an apportionment for representatives in Congress, into congressional districts also.

YORKTOWN CENTENNIAL.

Sometime since a movement was inaugurated looking to a celebration of the one hundreth anniversary of the surrender of Lord Cornwallis at Yorktown, and the Governors of the several states were requested to appoint commissioners to arrange therefor. In accordance with this request, Hon. Milo P. Jewett, of Milwaukee, was appointed to represent Wisconsin. The National Government will take a prominent part in the exercise of the occasion, which will consist of naval and military reviews, civic processions, orations, poems, and the laying of the corner stone of a monument to commemorate the great historical event which closed the war of the Revolution. A liberal appropriation has been made by Congress to assist in defraying the necessary expenses. It is exceedingly appropriate that events of this character should be celebrated, and nothing will more surely tend to heal the differences engendered by our civil war, or more securely weld the bonds of fraternity, without which we cannot become a homogeneous nation, than for the decendants, lineal and political, of the victors of Yorktown to gather and recount and commemorate the deeds of valor and heroism which secured our independence. In accordance with the terms of a resolution adopted by the Board of Commissioners, I respectfully recommend that an appropriation be made by you sufficient to enable the State of Wisconsin to take a suitable part in the celebration of this centennial anniversary.

CONCLUSION.

The richest blessings of Divine Providence have been bestowed upon our Nation during the past year most abundantly. Nothing that could contribute to our material or political welfare has been withheld, and, in consequence, financial and commercial affairs were never in a more satisfactory condition, the evidences of universal prosperity and contentment were never more abundant, and the prospects for continued advancement in wealth were never more encouraging. We have reason, also, to be most profoundedly grateful that the results of the late presidential election were so decisive, and were obtained by methods so unobjectionable, as to secure a prompt and cheerful acquiescence therein for the time being, and, in addition thereto, the assurance that they will be accepted by the great body of intelligent people in every state as the conclusive adjudication that, in the United States, the Nation, and not a State, is supreme. This is a promise of the impending and final disintegration of sectionalism, and marks the dawn of an era, most anxiously awaited by the people of Wisconsin, when there shall be, polititcally, neither north nor south, east nor west.

WILLIAM E. SMITH.

MADSION, January 13, 1881.

Reward of Perseverance.

Henry Clemonte writes: "For a long time I was troubled with Chronic Rheumatism, at times wholly disabled; I tried anything and everything recommended, but failed to get any benefit until a gentleman who was cured of Rheumatism by Dr. Thomas' Eclectric Oil told me about it. I began using it both internally and externally, and before two bottles were used I was radically cured. We find it a household medicine, and for Croup, Burns, Cuts, and Bruises, it has no equal.

Sold by A. J. Roberts, and Croft & Sherer.

WISCONSIN LEGISLATURE.

Complete List of Members Elect and Senators Holding Over.

Below will be found a complete list of the members of the next legislature, with their political affiliation. Fuller returns may make a change or two necessary, but the list is believed to be accurate:

SENATE.

1. W. A. Ellis.	18. G. E. Sutherland.
2. David M. Kelly.	19. J. B. Hamilton.
3. A. L. Phillips.	20. *Patrick H. Smith.*
4. O. B. Thomas.	21. S. F. Crosby.
5. I. W. VanSchaick.	22. *Benj. F. Carter.*
6. *George H. Paul.*	23. *Fred Kusel.*
7. E. B. Simpson.	24. Sam S. Fifield.
8. Joseph V. Quarles.	25. George B. Burrows.
9. J. F. Wiley.	26. *Matt Anderson.*
10. *Richard Weaver.*	27. G. E. McKeeby.
11. Thos. B. Scott.	28. J. B. McGrew.
12. J. W. Blackstone.	29. A. Finkelnburg.
13. *A. K. Delaney.*	30. Michael Griffin.
14. E. E. Woodman.	31. M. P. Wing.
15. *Joseph Rankin.*	32. Wm. T. Price.
16. J. W. Ryland.	33. *G. F. Hunt.*
17. H. Richardson.

Pain in the Back, resulting from strain, spinal affection, overwork, or disorder of the kidneys, yields to the remarkable strengthening powers of DAY'S KIDNEY PAD.

Burnett's Cocoaine—The Best Hair Dressing in the World.

BURNETT'S COCOAINE, allays irritation, removes all tendency to dandruff, invigorates the action of the capillaries in the highest degree, and has earned a deserved reputation *for promoting the growth and preserving the beauty of the human hair.* Ladies dressing their hair elaborately for the evening will find that it imparts a *helthy natural gloss* to the hair, and will cause it to *retain its shape* for hours.

BURNETT'S FLAVORING EXTRACTS are used and endorsed by the best Hotels, Confectioners and Grocers throughout the country. They are perfectly pure.

SURE CURE.

FOR

Coughs, Colds, Sore Throat, Bronchitis, Asthma, Consumption.

AND ALL DISEASES OF THROAT & LUNGS.

Put up in Quart-Size Bottles for Family Use.

Scientifically prepared of Balsam Tolu, Crystalized Rock Candy, Old Rye, and other tonics. The Formula is known to our best physicians, is highly commended by them, and the analysis of our most prominent chemist, Prof. G. A. MARINER, in Chicago, is on the label of every bottle. It is well known to the medical profession that TOLU ROCK and RYE will afford the greatest relief for Coughs, Colds, Influenza, Bronchitis, Sore Throat, Weak Lungs, also Consumption, in the incipient and advanced stages.

Used as a BEVERAGE and APPETIZER, it makes a delightful tonic for family use, is pleasant to take; if weak or debilitated, it gives tone, activity and strength to the whole human frame.

CAUTION. DON'T BE DECEIVED by unprincipled dealers who try to palm off upon you Rock and Rye in place of our TOLU ROCK AND RYE, which is the only medicated article made *the* genuine having a GOVERNMENT STAMP on each bottle.

LAWRENCE & MARTIN, Proprietors, 111 Madison Street, Chicago.

MISCELLANEOUS.

Dr. V. CLARENCE PRICE
HAS
Visited Janesville EIGHTEEN YEARS.

Has met with unparalleled success in the treatment of all

CHRONIC DISEASES!
OF THE
Throat, Lungs, Heart, Stomach, Liver.

Head, nerves, kidneys, bladder, womb, and blood affections of the urinary organs, gravel, scrofula, rheumatism, catarrh, asthma, bronchitis, dyspepsia, &c.

DR. PRICE'S REPUTATION!

Hha been acquired by candid, honest dealing and years of successful practice.

My practice, not one of experiment, but founded on the laws of Nature, with years of experience and evidence to sustain it, does not tear down, make sick to make well; no harsh treatment, no trifling, no flattering. We know the cause and the remedy needed; no guess work, but knowledge gained by years of experience in the treatment of Chronic Diseases exclusively; no encouragement without a prospect. Candid in our opinions, reasonable in our charges, claim not to know everything or cure everybody, but do lay claim to reason and common sense. We invite the sick, no matter what their ailment, to call and investigate before they abandon hope, make interrogations and decide for yourselves; it will cost nothing as consultation is free. Visits made regularly.

Dr. V. Clarence Price

Can be consulted at JANESVILLE, MYERS HOUSE, on Saturday, the 29th of January, 1881.
Patients will address all letters to Dr. Clarence Price, Waukegan, Ill., with stamp.

$500 Reward

Over a Million of Prof. Guilmette's French Kidney Pads havealready been sold in this country and in France; every one of which has given perfect satisfaction, and has performed cures every time when used according to directions. We now say to the afflicted and doubting ones that we will pay theabove reward for a single case of Lame Back that the Pad fails to cure. This Great Remedy will Positively and Permanently cure Lumbago, Lame Back, Sciatica, Gravel, Diabetes, Dropsy, Bright's Disease of the Kidneys, Incontinence and Retention of the Urine, Inflamation of the Kidneys, Catarrh of the Bladder, High Colored Urine, Pain in the Back, Side or Loins, Nervous Weakness, and in fact all disorders of the Bladder and Urinary Organs whether contracted by private disease or otherwise.

LADIES, if you are suffering from Female Weakness, Leucorrhœa, or any disease of the Kidneys, Bladder, or Urinary Organs, you can be cured without swallowing nauseous medicines, by simply wearing

PROF. GUILMETTE'S
FRENCH KIDNEY PAD,
WHICH CURES BY ABSORPTION.

Ask your druggist for Prof. GUILMETTE'S FRENCH KIDNEY PAD, and take no other. If he has not got it, send $2.00 and you will receive the Pad by return mail."

TESTIMONIALS FROM THE PEOPLE.

JUDGE BUCHANAN, Lawyer, Toledo, O., says: "One of Prof. Guilmette's French Kidney Pads cured me of Lumbago in three weeks' time. My case had been given up by the best Doctors as incurable. During all this time I suffered untold agony and paid out large sums of money.

GEORGE VETTER, J. P., Toledo, O., says: "I suffered for three years with Sciatica and Kidney Disease, and often had to go about on crutches, I was entirely and permanently cured after wearing Prof. Guilmette's French Kidney Pad four weeks."

'SQUIRE N. C. SCOTT, Sylvania, O., writes: "I have been a great sufferer for 15 years with Bright's Disease of the Kidneys. For weeks at a time was unable to get out of bed; took barrels of medicine, but they gave me only temporary relief. I wore two of Prof. Guilmette's Kidney Pads six weeks, and I now know I am entirely cured."

MRS. HELLEN JEROME, Toledo, O., says: "For years I have been confined, a great part of the time to my bed, with Lucorrhœa and female weakness. I wore one of Guilmette's Kidney Pads and was cured in one month."

H. B. GREEN, Wholesale Grocer, Findlay, O., writes:—"I suffered for 25 years with lame back and in three weeks was permanently cured by wearing one of Prof. Guilmette's Kidney Pads."

B. F. KEESLING, M. D., Druggist, Logansport, Ind., when sending in an order for Kidney Pads, writes: "I wore one of the first ones we had and I received more benefit from it than anything I ever used. In fact the Pads give better general satisfaction than any Kidney remedy we ever sold."

RAY & SHOEMAKER, Druggists, Hannibal, Mo., "We are working up a lively trade in your Pads, and are hearing of good results from them every day."

Prof. Guilmette's French Liver Pad.

Will positively cure Fever and Ague, Dumb Ague, Ague Cake, Billious Fever, Jaundice, Dyspepsia, and all diseases of the Liver, Stomach and Blood. Price $1.50 by mail. Send for Prof. Guilmette's Treaties on the Kidneys and Liver, free by mail. Address

STATE OF WISCONSIN—In Circuit Court for Rock County.—Barnabas B. Eldredge, plaintiff, against Hiram J. Baker and John Livingston, defendants.

By virtue and in pursuance of a judgment of foreclosure and sale entered in the above entitled action in the Circuit Court for Rock county in said State, on the twenty-sixth day of December, A. D. 1879, in favor of the above named plaintiff, and against the above named defendants, I shall offer for sale and sell at public auction to the highest bidder, on the sidewalk in front of the Rock County National Bank, in the city of Janesville, on East Milwaukee street, in said city,

On the Eleventh Day of February, A. D. 1881

at two o'clock in the afternoon of that day, the following described premises, namely: All that certain piece, parcel or lot of land situate, lying and being in the city of Janesville, in the county of Rock and State of Wisconsin, and being a part and parcel of lots numbered three (3) and four (4) in block number thirty-three (33) of the Village of Janesville, as per the recorded plat thereof on file and of record in the office of the Register of Deeds of said Rock county, included within the following boundary lines, viz: commencing in the easterly line of Main street in said city sixty-six (66) feet southerly of the northwesterly corner of said lot number four (4), thence in an easterly direction at right angles with said Main street eight (8) rods, thence in a southerly direction and parallel with said Main street twenty-two (22) feet, thence in a westerly direction in a line parallel with the line first above described to easterly line of Main street, and thence northerly on the easterly line of said Main street to the place of beginning, together with all the privileges and appurtenances to the same belonging, or so much thereof as may be sufficient to satisfy said judgment and interest and costs of sale, and as may be sold seperately without material injury to the parties in interest.—Dated December 28th, 1880.

J. J. COMSTOCK,
Sheriff Rock County, Wisconsin.

In fact all the needfuls for a First Class Drug Store. Prescriptions and Family Receipts Carefully Prepared.

W. M. ELDREDGE,
aug31d1y 27 NORTH MAIN STREET, JANESVILLE, WIS.

☞ ***KIDNEGEN is highly recommended and unsurpassed for WEAK or FOUL KIDNEYS, DROPSY, BRIGHT'S DISEASE LOSS of ENERGY, NERVOUS DEBILITY, or any OBSTRUCTIONS arising from KIDNEY or BLADDER DISEASES. Also for Yellow Fever, Blood and Kidney Poisoning, in infected malarial sections.***

☞By the distillation of a **FOREST LEAF** with **JUNIPER BERRIES** and **BARLEY MALT** we have discovered **KIDNEGEN**, which acts specifically on the Kidneys and Urinary Organs, removing injurious deposits formed in the bladder and preventing any straining, smarting sensation, heat or irritation in the membraneous lining of the ducts or water passages. It excites a healthy action in the Kidneys giving them strength, vigor, and restoring these organs to a healthy condition, showing the effects on both the color and easy flow of urine. It can be taken at all times, in all climates and under all circumstances without injury to the system. Unlike any other preparation for Kidney difficulties it has a very pleasant and agreeable taste and flavor. It has been difficult to make a preparation containing **positive diuretics** properties which will **not nauseate**, but be acceptable to the stomach. Before taking any **Liver** medicine try a bottle of KIDNEGEN to CLEANSE THE KIDNEYS from foul matter. Try it and you will always use it as a family medicine. **Ladies especially** will like it, and **Gentlemen** will find **KIDNEGEN** the best Kidney Tonic ever used.

NOTIFE.—Each bottle bears the signature of LAWRENCE & MARTIN, also a **Proprietary Stamp**, which permits KIDNEGEN to ae sold (without license) by druggists, grocers and other persons everywhere.

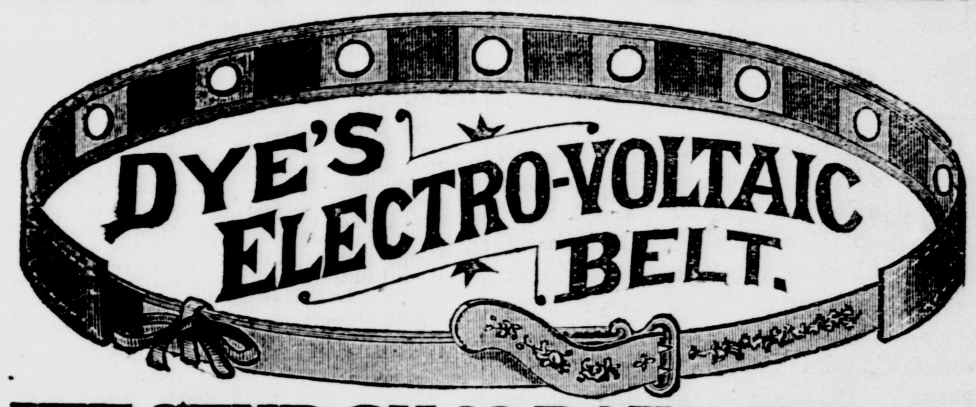

Put Up in Quart Size Bottles for General and Family Use.

If not found at your druggists or grocers, we will send a bottle prepaid to the nearest express office to you.

CELEBRATED

STOMACH

BITTERS

Sleep, Appetite and Strength

Return when Hostetter's Stomach Bitters is systematically used by a bilious dyspeptic sufferer. Moreover, since the brain sympathizes closely with the stomach and its associate organs, the liver and the bowels, as their derangement is rectified by the action of the Bitters, mental despondency produced by that derangement disappears.

For sale by all Druggists and Dealers generally.

DAY'S Kidney PAD

A discovery which cures by the natural process,

ABSORPTION,

all diseases of the **Kidneys, Bladder, Urinary Organs and Nervous System,** when nothing else can. It is comfortable to the patient, positive in its effects, and the first cure for those painful and much dreaded affections,

Diabetes and Bright's Disease,

while its cures of **Gravel, Dropsy, Catarrh of the Bladder, Brickdust Deposit, Painful Urinating, High-Colored Urine, Nervous Weakness and Pain in the Back** seem more like miracles than cases of natural healing.

DELICATE FEMALES

prostrated by irregular habits, the abuse of nature and mental or physical over-exertion, find their greatest relief in the use of DAY'S KIDNEY PAD, which strengthens, invigorates and restores the vigor of health.

PAIN IN THE BACK.

We say positively, and without fear of contradiction, that DAY'S KIDNEY PAD is the only certain and permanent cure for every form of this prevalent and distressing complaint.

FOR ALL MEN

suffering from nervous and physical debility, loss of memory, or vitality imparted by the errors of youth or too close application to work, may be restored and manhood regained.

Avoid all kidney medicines which are taken into the system by way of the stomach; it is an old treatment, well tried, and proven inefficient, though sometimes effecting apparent cures of one complaint they sow the seeds of more trouble some and permanent disorders. The price of our PAD brings it within the reach of all, and it will annually save many times its cost in doctors' bills, medicines and plasters, which at best give but temporary relief. It can be used without fear or harm, and with certainty of a permanent cure. For sale by Druggists generally, or sent by mail (free of postage) on receipt of the price. Regular Pad, $1.00; Children's, $1.00; Special (extra size), $2.00. Our book, "How a Life was Saved," giving the history of this new discovery and a large record of most remarkable cures sent free. Write for it. Address, DAY KIDNEY PAD CO., Toledo, O.

CAUTION. Owing to the many worthless Kidney Pads now seeking a sale on our reputation, we deem it due the afflicted to warn them. Ask for DAY'S KIDNEY PAD, and take no other.

HEIMSTREET is the only agent in Rock county for Day's Kidney Pads.

R. C. YEOMANS

NEW ADVERTISEMENTS

SCIENCE vs. EPILEPSY!

OR

DOCTOR against QUACK!

A Leading London Physician Establishes an Office in New York for the Cure of Epileptic Fits.

[From Am. Journal of Medicine.]

Dr. Ab. Meserole (late of London), who makes a specialty of Epilepsy, has without doubt treated and cured more cases than any other living physician. His success has simply been astonishing; we have heard of cases of over 20 years' standing, successfully cured by him. He has published a valuable work on this disease, which he sends with a large bottle of his wonderful cure free to any sufferer who may send their express and P. O. address. We advise anyone wishing a cure to address Dr. AB. MESEROLE, No. 96 John st., New York.

110 Acres Wood Land

FOR SALE!

I offer for sale 110 acres of choice Wood Land in town of Janesville. The land is adjacent to the river and about four miles from the city, and easy of access by boat or wagon. The property will only be sold entire, as I have no time to look after small lots. This is a rare opportunity for several gentlemen to club together and each buy a wood lot. Every farmer should have a wood lot. Wood will always command a large price in the Janesville market, and its value will increase from year to year.

Price low and terms easy. For further information call on Jule H. Barker, town of Janesville, or address the undersigned,

J. H. CONRAD,

58 Mich. Ave., Chicago, Ill.

HELP Yourselves by making money when a golden chance is offered, thereby always keeping poverty from your door. Those who always take advantage of the good chances for making money that are offered, generally become wealthy, while those who do not improve such chances remain in poverty. We want many men, women, boys and girls to work for us right in their own localities. The business will pay more than ten times ordinary wages. We furnish an expensive outfit and all that you need, free. No one who engages fails to make money very rapidly. You can devote your whole time to the work, or only your spare moments. Full information and all that is needed sent free. Address STINSON & Co., Portland Maine. dec15d6m

"FOR THE BLOOD IS THE LIFE."

Our strength and power of endurance depends largely upon the condition of the blood. No matter what the external cause may be, the real or direct cause of

BLOOD

a large proportion of diseases is bad blood. The PERUVIAN WINE OF IRON nourishes and purifies the blood, revives the energies and acts as a tonic; invigorating the whole system, and restoring vitality to all the organs weakened by disease or overwork. Peruvian Wine of Iron is sold in Janesville only by Prentice & Evenson, opposite Post Office.

COLLINS'

Cherry COUGH CURE!

Has received the endorsement of every one who has used it. Read what some of them say:—

MRS. H. A. PATTERSON—"I cheerfully certify that I have found it all that is claimed for it."

E. F. CARPENTER—"I consider it the very best cough medicine I have ever used."

G. VEEDER—"I consider it the *ne plus ultra* cough cure."

A. HYATT SMITH—"I cheerfully recommend it as pleasant to the taste, and very beneficial in its effects."

D. D. BENNETT—"It is the best preparation I have ever used for removing irritation of the throat so common with speakers and singers."

E. D. TALLMAN—"I consider it not only the pleasantest but the very best cough medicine I have ever used."

E. LEAVETT—"I consider it the best preparation for the throat that I have ever used."

Mothers! Mothers!! Mothers!!

Are you disturbed at night and broken of your rest by a sick child suffering and crying with the excruciating pain of cutting teeth? If so, go at once and get a bottle of MRS. WINSLOW'S SOOTHING SYRUP. It will relieve the poor little sufferer immediately—depend upon it; there is no mistake about it. There is not a mother on earth who has ever used it who will not tell you at once that it will regulate the bowels, and give rest to the mother, and relief and health to the child, operating like magic. It is perfectly safe to use in all cases, and pleasant to the taste, and is the prescription of one of the oldest and best female physicians and nurses in the United States. Sold everywhere. 25 cents a bottle.

Coughs.

"Brown's Bronchial Troches" are used with advantage to alleviate COUGHS, SORE THROAT, HOARSENESS and BRONCHIAL AFFECTIONS. For thirty years these Troches have been in use, with annually increasing favor. They are not new and untried, but, having been tested by wide and constant use for nearly an entire generation, they have attained well-merited rank among the few staple remedies of the age.

THE THROT.—*"Brown's Bronchial Troches"* act directly on the organs of the voice. They have an extraordinary effect in all disorders of the Throat and Larynx, restoring a healthy tone when relaxed, either from cold or over-exertion of the voice, and produce a clear and distinct enunciation. *Speakers and Singers* find the Troches useful.

A COUGH, COLD, CATARRH or SORE THROAT requires immediate attention, as neglect oftentimes results in some incurable Lung Disease. *"Brown's Bronchial Troches"* will almost invariably give relief. Imitations are offered for sale, many of which are injurious. The genuine *Boown's Bronchial Troches"* are sold *only in boxes.*

BRIEFLETS.

—Snow is taking a tumble.

—The church folk gather to-night for prayer.

—"The Big Four" have written to find out when they can get the Opera house.

—The "Merrie-Makers" will make all merry who go to the Opera house this evening.

—Dr. Banks, of Omro, is in the city spending a few days with his daughter, Mrs. A. C. Bates.

—Last evening four homeless wanderers were brought before Justice Nolan, and sentenced to five days each in jail.

—A new sign graces the front of Leslie Treat's boot and shoe store, and is the work of an amateur, though it don't look so.

—The Joy forgery case is occupying Justice Nolan's attention now. It seems to bring out a tangled mess of testimony, but the end draweth nigh.

—H. A. Stone has been appointed one of the deputy sheriffs of this county. He will make a good one, and the appointment will give general satisfaction.

—Several of our druggists expect to go to Beloit, to-morrow, to attend the meeting of the Rock County Pharmaceutical Association, which will have only one day's session.

—Missses S. Matilda Bailey, Lillian F. Neal, Fannie J. Ray, Clara A. Judd, Carrie A. Grub, Lou T. Neal, and Cornelia N. Reddy, of the L. A. C. F. Club, are arranging for a private party in Cannon's hall, Thursday, the 20th inst.

—The marriage of Mark Ripley to Mrs. Culver, was quietly and happily consummated, last Tuesday evening, Rev. T. P. Sawin performing the ceremony. The many friends of both parties wish them much joy in their new relationship.

—Patterson and Murphy are said to have prepared some choice character songs for their concert, next Monday evening, which will just shake an audience all up, and outshine anything they have yet given in that line. There are other attractions on the programme.

—There was a goodly sized audience gathered at the special service at Court Street Church last evening. Meetings will be held there to-night and to-morrow night also, and next Sunday will be quarterly meeting service with preaching probably by Presiding Elder Mead.

—The Merry Club had a happy social and dance last evening, which was well attended. It is expected that the closing party of the series this season will close with a masquerade, which will be a highly enjoyable affair as it will be joined in only by the members of the club, who have by this time got pretty well acquainted with each other.

—Oliver Harris, who has for about a week past been very ill with typhoid-pneumonia died last evening about 6 o'clock. He was aged about forty years and over half of that time has been spent by him in this city and county, he and his brothers first living in the town of La Prairie, and afterwards the family moved to this city, and he became engaged in the saloon business with his brothers. He had many friends and a a large acquaintanceship, and by them his death will be learned with sadness.

Jay D. Dunning, Clerk, Wabash Shops Toledo, Ohio, says: I am now wearing an "Only Lung Pad," and it has afforded me almost instant relief from asthma.—*See Ade.*

THE WEATHER.

REPORTED BY PRENTICE & EVENSON, DRUGGISTS.

The thermometer at 6 o'clock last night stood at 33 degrees above zero; at 1 o'clock A. M. to-day at 35 degrees above; at 7 o'clock A. M. at 22 degrees above, and at 1 o'clock P. M. at 10 degrees above. Snow from early morning, with clearing weather in the afternoon.

No remedy for kidney diseases heretofore discovered can be held for one moment in comparison with Warner's Safe Kidney and Liver Cure.—*C. A. Harvey, D. D., Washington, D.C.*

THE NEW ARMORY.

The Bower City Rifles will to-morrow evening dedicate their new armory in Bennett's block, and preparations are made for having a highly enjoyable occasion. The new armory is a roomy and attractive one, and is arranged very conveniently. The armory proper is a very commodious drill room, having not a pillar or post to obstruct the marching of men. The gun rack is very neatly arranged with cupboards beneath for uniforms and accoutrements and a locker at each end for general use. As decorated for the coming dedication the armory presents a very pleasing appearance, there being an abundance of flags, and draped and grouped in various ways, while pictures adorn the wall, and military accoutrements are arranged in pleasing designs.

Off from the armory proper is a parlor, nicely carpeted and furnished, and a dressing room off this with all needed conveniencies. There is also in connection with the armory a lounging room, where the Rifles can sit and smoke, chat, play games, etc., at will.

The preparations for the dedicatory evening have been extensive, and an attractive programme has been arranged, noticeable in which will be the exhibition of Childer's lightning drill by a picked eight, who have been long practicing, being under the instruction of Sergt. Childers for months before his death. It is claimed that no eight men in the military of the State can show such superiority in fancy drill. The same eight will also give an exhibition of how soldiers drilled in 1812, which will be a novel contrast to the manual of to-day. Hon. Pliny Norcross will give the dedicatory address, Miss Minnie Holdredge will give readings, the Bower City Band will play, and the Janesville Glee Club will sing. A dance will follow the entertainment. The Rifles merit the hearty support of the public in this enterprise, and by the entertainment they promise more than enough enjoyment to offset the time and money needed to participate in it.

ABRAM S. DITMAN, Washington Heights, Ill., says; I have always found a ready sale fo A. S. T. Co. Tipped Shoes; they take the lead in children's shoes, and my customers will have no others.

WHISKY AND OPIUM.

They End the Life of Darius Allen, the Lawyer and Lecturer.

Darius Allen is no more, and his struggles to reform, his many pledges and his many falls, are ended. Most of last summer he spent in this city, where years ago he used to live, and practice law; and during his last visit to Janesville he kept free from the tempter which had made such ruin with his life. On leaving here he intended to go East, but it seems that he got no further than Chicago, and has been leading a life of debauchery again. Now comes the news that whisky and opium together have killed him. On Tuesday evening he was found lying in a helpless condition at the corner of Desplaines and Monroe streets, and was taken to the police station. Yesterday morning he complained of feeling ill, and a mattress was placed on the floor, and he was allowed to lie down on this. About 11 o'clock in the forenoon he was so ill that a physician was called, but it was too late, as he died shortly after. A piece of opium was found in his pocket, and it was evident that he had taken an overdose. The coroner's jury found the cause of death to be congestion of the brain, caused by opium-eating, but whether taken with suicidal intent or not was not determined.

CORINNE To-NIGHT.

This evening the "Merrie-Makers" are to give "The Magic Slipper," at the Opera house, and those who miss seeing them will surely miss much. Little Corinne, as "Cinderella" is pronounced by all theatrical and musical critics to be wonderful, and the company is large and excellent, though all are quite youthful. Among the many words of praise which the Chicago papers bestowed on the "Merrie Makers," week before last, is the following from the Evening Journal:

The Corinne Merry-Makers appeared here last evening in "The Magic Slipper," before an excellent house. The company consists of Corinne, a phenomenally talanted "midget," and a number of gifted girls and boys, and the piece in which they appeared is, as the name implies, a really clever burlesque of "Cinderalla." Corinne, who assumed the role of Cinderella, is a little mite of a thing who makes up in talent what she lacks in size. She acts with extreme naturalness and with arch piquancy that is simpiy too cute for anything. She also sings well, showing a cultivated voice of rare excellence, far in excess of her years.

Value of a Dollar.

You never know the value of a dollar until you try to borrow one, and you never know the true value of Spring Blossom until you're doubled up with Billious Colic, Indigestion or Constipation, and you try it. Price 50 cents, trial bottles 10 cents.

For sale by A. J. Roberts, and Croft & Sherer.

TOWN OF TURTLE.

The Report of its Mutual Fire Insurance Company.

We commenced business August 1, 1873, with

29 policies insuring property to the amount of	$ 41,860
155 policies have been issued, amounting to	230,700
60 policies have expired and cancelled	88,490
95 policies now in force, insuring to the amount of	142,210

We do not insure anything outside the town of Turtle. All policies run five years, and so far costing us about one-tenth of the amount charged by stock companies. We have met with but one loss of $140; no assessment yet, and cash in the treasury, $140.78; expenses the past year:

Paid one loss	$ 140
Other expenses	22 27
Increase of capital the past year	13 570

At the annual meeting to-day William Gates, Thomas Holmes, G. H. Crosby, H. J. Murry, and Chauncy Ross were elected directors. WM. GATES, President.

THOS. HOLMES, Secretary, Treasurer and Agent.

Shopiere, January 4, 1881.

From the Waupun [Wis.] Leader.

"DR. PRICE.—The unbroken regularity of the visits of this well known physician is at once the best evidence of hif professional standing and of his success in the treatment of diseafes. The quack prospers best where he is least known, and shuns the place he has once visited. Dr. Price has filled his appointments for years.

Making a specialty of chronic diseases, embracing diseases of the heart, throat, stomach, lungs, liver, &c., he coulp could find in his line at any ene point but a limited practice. By widening his circuit he has attained to a practice such as he could never otherwise have reached. This gives him an experience not to be had in any other way.

Those out of health can have implicit confidence in Dr. Price, and feel certain when consulting him, that he is a thoroughly educated physictan, with years of experience in the treatment of Chronic diseases exclusively."

Dr. Price will be for consultation on his next visit at Janesville, Myers house, on Saturday, the 29th of January, 1881.

DR. STRASSMAN COMING.

Dr. Strassman, the optican, is to open his office at the Myers house Tuesday, January 18, and those who desire to see him on any of the business outlined in his card found elsewhere, should bear in mind the time and place.

LA PRAIRIE FIRE INSURANCE COMPANY.

The following are items from the secretary's annual report:

The amount insured at the last annual meeting		$700,544 00
The amount expired, cancelled and retired during the year		126,012 00
Leaving in force up to date of the first named amount		664,532 00
To which has been added renewals and new business during the year		157,480 00
Total in force at date		$822,012 00
Received renewals and new business during the year	$	389 08
The amount on assessment of August 24th		399 49
Total income for year		788 57
Expenses for the year as follows:		
Paid old indebtedness		186 35
Paid losses		165 77
Expenses, printing, postal cards, postage		20 82
Paid to officers		179 50
Total paid out	$	562 44
Balance on hand	$	226 13

And one loss of $500 to John Cummings, of Bradford, to pay which the directors have ordered an assessment of one-half mill on the dollar of all the stock in the company.

The directors were elected as follows: Henry Tarrant, J. P. Thomas, George Sherman, A. G. Ransom, Charles Noyes, Byron Snyder, and J. W. Crist, after which the directors elected the following officers; J. P. Thomas, President; Henry Tarrant, Secretary and Treasurer.

H. TARRANT, Sec.'y.

Sitting up Nights.

Mrs. E. H. Perkins, Creek Centre, Warren Co., N. Y., writes: She has been troubled with Asthma for four years—had to sit up night after night with it; she has taken two bottles of Dr. Thomas' Eclectric Oil, and is perfectly cured. She strongly recommends it, and wishes to act as agent among her neighbors.
Sold by A. J. Roberts and Croft & Sherer.

S. H. Irwin, of Ute Creek, Colfax Co., New Mexico, says: My wife has been cured of a cough of thirty years' standing by wearing an "Only Lung Pad."—*See Ade.*

COMMERCIAL NEWS.

MISCELLANEOUS.

ROYAL

BAKING POWDER

Absolutely Pure.

Made from Grape Cream Tartar.—No other preparation makes such light, flaky hot breads, or luxurious pastry. Can be eaten by Dyspeptics without fear of the ills resulting from heavy indigestible food.—Sold only in cans, by all Grocers.

ROYAL BAKING POWDER CO., New York.

The PUBLIC

Have been almost bored to death with

"Closing Out At COST SALES."

That is, you get the goods for what they cost you, but we have a new one (for this climate.) During the balance of this month we shall make

20 PER CENT. DISCOUNT,

On all Overcoats that we have been selling at

$20 and Upwards,

All Underwear at $1.00 and over; all Winter Gloves, Mittens, Caps, Mufflers and Wristlets.

15 Per Cent. Discount on all Overcoats Under $20,

And Underwear under $1.00.

Our goods are all marked in Plain Figures, and no article (except Robes) could have been purchased yesterday for one cent less than price, but we make this reduction now, in order to reduce winter Stock as much as possible before inventory.

This is a good investment for those desiring a bargain, and we invite all to give the goods an inspection, and see how they look at new prices.

OUR

BUFFALO ROBES!

Have been reduced in about the same proportion, and there will never be a better opportunity to purchase one of these cold weather comforts.

1881.

We will open this week $20,000 of New Goods for the winter months of 1881. Our large sales for the past three months have reduced our stock so that we we are able to buy nearly a full assortment in all departments, of the newest and latest styles for the next 90 days. We have no old stock to close out, but buying at this time of year we can sell you new, fresh, stylish goods at 10 per cent. less than former prices; on all kinds of Domestics, such as Canton Flannels, Ginghams, Prints, Shirtings, Denims, Tickings, &c., 5 per cent. less than any house in the city, and will continue to do so as long as we are in business. Black and Colored Cashmeres we bought last April when those goods were lower than ever known before. Our Black Cashmeres that cost us 90c are now worth in the market 1.07 1.2, so houses buying from day to day have to pay the advance prices in the busy season. We make a specialty of Kid Gloves, never out of a No. or Button in the leading brands of Kid Gloves. We commence the year of 1881 with a complete assortment of all kinds of First Class Dry Goods.
